

DB House Shoes — Happy Feet, Happy Face

An important step in not falling

Falling at an older age can lead to increase use of medication and greater dependence on medical care. It is estimated that about a third of all people aged over 65 fall each year, with higher rates among those over 75.

Against these alarming statistics DB Shoes has been working in close consultation with medical practitioners in developing a House Shoe which is designed specifically for falls prevention within the home.

House Shoes have a removable inner sole which reduces torsional flexibility and the hard wearing sole makes these shoes ideal for indoor or outdoor use.

Most older people who enter falls prevention programmes do so only after they have fallen, this House Shoe represents an important step in trying to prevent this from happening.

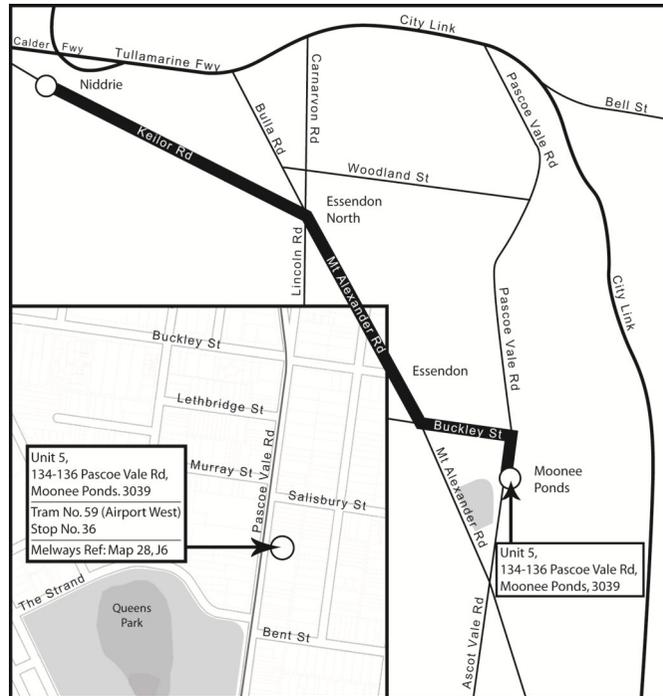

Available in V (2E – 4E) and 6V (6E – 8E), the House Shoe offers the comfort of a traditional slipper with the increased support and stability found in a shoe. The use of a shoe stiffener gives increased ankle support and the inclusion of a removable sock allows for extra depth or orthotic insertion if necessary.

How We Help

1. We assess your feet, measuring both each time you visit and make a purchase. This is because, over time, your feet can change.
2. It's normal to have two different sized feet, so we fit the largest foot first and make any modifications needed to then fit the smaller one. We can also provide two different shoe sizes.
3. We select shoes that match your feet's length and shape because sizing systems aren't standard.
4. We show you how to wear your shoes comfortably.
5. We can fit orthotics and other inserts into your shoes.
6. Our experienced team helps you choose shoes that match your activity.

Where to find us

Opening Hours

Monday to Friday, 9am to 5pm
One Saturday per month by appointment
Other times by request
Appointments DEFINITELY preferred
Home visits available – fee applies
Laybys welcome

Rebates, government subsidies and claims including TAC, DVA and WorkCover may apply

Accreditations

Member, Australian Pedorthic Medical Grade Footwear Association (APMGFA)
Clare Nelson, Certified Medical Grade Footwear Practitioner Number 2515

What is a Pedorthist?

A Pedorthist assesses and fits clients for medical footwear, modifications and/or orthotic devices. This can include prefabricated and cast custom footwear.

House Shoes—more supportive than slippers
